Key quantitative measure: Proportion of students in top two NAPLAN bands at Year 5 (Reading and Numeracy)

This school (2014-2015): 26%  
Similar schools: 16%  
Sample size for your school: 89

This measure represents the proportion of all students undertaking the NAPLAN Reading and Numeracy assessments at your school who received results in the top two bands in Year 5. This measure excludes absent, exempt, or withdrawn students.

Show breakdown by Reading and Numeracy.
Key quantitative measure: Proportion of tracked students in top two NAPLAN bands at Year 7 (Reading and Numeracy)

This school (2014-2015) 32%

Similar schools: 17%

Sample size for your school: 76

This measure tracks the students undertaking the NAPLAN Year 5 assessment at your school to Year 7. It represents the proportion of those receiving results in the top two bands, out of all students who undertook NAPLAN Year 7 (and who were linked through ERN to your school). This measure excludes absent, exempt, or withdrawn students.

Note: This measure tracks students moving to other NSW government schools between Year 5 and Year 7. It does not track students moving to non-government schools. An indication of the proportion of students at your school who could not be tracked in Year 7 is in the Contextual Information Report.
